Yes No	In case of constructed property were all MEPA conditions and regulations outlined in the permit adhered to?	Yes No
In case of property under construction, was the development approved in all respects by MEPA?	Yes No					
In case of constructed property were all MEPA conditions and regulations outlined in the permit adhered to?	Yes No					

The adopted Market Value in accordance with the current Practice statement of the Valuation Standards is defined as:

"Market Value is the estimated amount for which a property should exchange on the date of valuation between a willing buyer and willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion."

The valuation is carried out in accordance with the Valuation Standards for Accredited Valuers 2012 published by the Kamra tal-Periti (Chamber of Architects and Civil Engineers, Malta) and is undertaken by an appropriately qualified valuer as defined therein.

This report is based on a visual inspection of the subject property and related to its general state. It is not intended as, or a substitute for, a formal structural survey of the inspected property, but is to be considered solely for valuation purposes. It is prepared for the exclusive use of MeDirect Bank (Malta) plc.
