## Informations about the Fund

### Classification

Bonds and other debt instruments denominated in the euro.

### Determination and allocation of distributable sums

Accumulation.

### Tax treatment

The Fund is eligible for life insurance policies. The Fund may provide a support vehicle for life insurance policies denominated in units of account.

The UCITS, by its nature, is not subject to taxation. However, unitholders may be taxed on any income distributed by the Fund or when they sell Fund units. The tax treatment applicable to amounts distributed by the Fund or unrealised or realised capital gains or losses will depend on the individual unitholder's tax situation, residence for tax purposes and/or the investment jurisdiction of the Fund. If an investor is uncertain of his or her tax position, the investor should consult a financial advisor or a professional investment consultant to determine the tax rules applicable to his or her particular situation before any investment. Some income distributed by the UCITS to unitholders residing outside France may be subject to withholding tax in France.

### Benchmark index

The Fund's benchmark index is the FTSE MTS Eurozone Government Broad IG 5-7Y Index, a euro-denominated total return index (i.e. reinvesting the coupons of the components).

The FTSE MTS Eurozone Government Broad IG 5-7Y Index is a "bond" index calculated and published by the international index provider FTSE TMX Global Debt Capital Market Limited ("FTSE MTS").

### Management fees and commissions

Administrative and management fees: 0.14% including tax.

Subscription fees received by the Fund: None.

In compliance with current regulations, this mutual fund has, during the financial period just ended, levied charges at rates which are in line with those stated in the Prospectus and used under the following headings:

- Notes to the Annual Accounts /- Management fees.
- Shareholders' Funds /- Subscription and/or redemption fees /- Management fees.

### Investment objective

The Fund's investment objective is to track the performance of the FTSE MTS Eurozone Government Broad IG 5-7Y Index (see "Benchmark Index" section), as closely as possible, whether the Index rises or falls.

The Fund is managed to obtain the smallest possible difference between changes in the NAV and changes in the value of the FTSE MTS Eurozone Government Broad IG 5-7Y Index (hereinafter the "FTSE MTS Eurozone Government Broad IG 5-7Y Index"). The target for the maximum tracking error between changes in the Fund's Net Asset Value and those in the FTSE MTS Eurozone Government Broad IG 5-7Y Index is 2%.

If the tracking error exceeds 2%, the aim would nevertheless be to remain below 15% of the volatility shown by the FTSE MTS Eurozone Government Broad IG 5-7Y Index.

### Investment strategy

The Fund is managed by "index tracking".

#### **1. Strategy employed :**

The Fund is managed using a technique known as "index-tracking", the objective of which is to replicate changes in the performance of the FTSE MTS Eurozone Government Broad IG 5-7Y Index using a synthetic replication method.

# UCITS AMUNDI ETF GOVT BOND EUROMTS BROAD INVESTMENT GRADE 5-7 UCITS ETF

To maintain the closest possible correlation with the performance of the FTSE MTS Eurozone Government Broad IG 5-7Y Index, the Fund will buy a portfolio of bonds and money market instruments (the "Portfolio") and an over-the-counter (OTC) total return swap, a financial derivative instrument which turns the exposure to the securities in the Portfolio into exposure to the FTSE MTS Eurozone Government Broad IG 5-7Y Index.

Geographic area of the securities issuers	Eurozone countries: Germany, Austria, Belgium, Spain, Finland, France, Greece, Ireland, Italy, the Netherlands and Portugal.
Spread of sensitivity to interest rates	Between 4 and 6
Spread of sensitivity to credit spread	Not applicable
Currency in which the components of the index are denominated	Euro (EUR)
Level of exposure to currency exchange risk	None

The Fund shall observe the investment rules stipulated in Articles R214-21, R214-22 and R214-23 the French Monetary and Financial Code.

The Portfolio comprising directly held assets described in the "Assets used" section, complies with the provisions of Article R 214-21 of the French Monetary and Financial Code (CMF).

The Fund's exposure to the Index achieved through the total return swap may be eligible for exemption ratios applicable to the index-tracking UCITS referred to in Article R214-22 of the French Monetary and Financial Code (CMF). That Article stipulates that an index may comprise up to 20% equities or debt securities issued by the same entity; this limit may be raised to 35% maximum for a single issuing entity, when such increase is justified by special market circumstances such as the regulated markets where some marketable securities or some money-market instruments are largely dominant.

## **2. Assets used (except embedded derivatives):**

The Fund's exposure to the Index is achieved through the total return swap.  
The Portfolio consists of the Fund's directly held assets described below.

### **- Securities:**

The Fund will be continuously exposed to one or more Eurozone interest rate markets.

The securities held by the Fund will be chosen so as to limit the tracking costs of the FTSE MTS Eurozone Government Broad IG 5-7Y Index.

They will mostly be fixed interest securities from OECD countries, including government stock, Treasury bills, certificates of deposit, commercial paper, bonds issued by firms registered in OECD countries and EMTN (Euro Medium Term Notes).

### **- Interest-rate instruments:**

Up to 100% of the Fund's net assets may be invested in any kind of money-market and/or bond instrument from OECD countries.

The bond issuers selected may be from the private sector or from the public sector (national or local governments, etc.), and private sector debt may account for up to 100% of all debt instruments.

The Fund's sensitivity to interest rates will range from 4 to 6.

### **- Debt instruments and money market instruments in euros:**

Cash flow will be managed through money market instruments.

Portfolio securities will be selected according to management decision and in compliance with the internal credit risk monitoring policy of the Management Company.

# UCITS AMUNDI ETF GOVT BOND EUROMTS BROAD INVESTMENT GRADE 5-7 UCITS ETF

For the purpose of stock-picking, management does not - neither exclusively nor automatically - rely on the ratings issued by rating agencies, but bases its buy and sell opinion about a security on its own credit and market analyses. For information, management may specifically deal in securities with minimum ratings of AA in the S&P and Moody's scale.

The bond issuers selected may be from the private sector or from the public sector (national or local governments, etc.), and private sector debt may account for up to 100% of all debt instruments. The average maturity of these instruments will not exceed 10 years.

## - UCITS units or shares:

The Fund may hold up to 10% of its assets in units and/or shares of UCITS. These UCITS are representative of all asset classes, in compliance with the Fund's requirements.

They may be UCITS managed by the Management Company, or by other entities, which may or may not belong to the Crédit Agricole SA Group, including related companies.

## **3. Derivatives:**

The Fund will use OTC derivative financial instruments, in particular futures such as total return swaps, to turn the exposure to securities held by the Fund into exposure to the FTSE MTS Eurozone Government Broad IG 5-7Y Index.

The Fund may take positions in the following derivatives:

Type of market:

- regulated
- organised
- over-the-counter

Categories of risk in which the Fund intends to take a position:

- equity risk
- interest rates
- currency risk
- credit risk
- other risks

Nature of positions to be taken, which must be limited to those required to meet the management objective:

- hedging
- exposure
- arbitrage
- other

Types of instruments used:

- futures: on equities and indices
- options: on equities and indices
- total return swaps: on equities and indices

The Fund may enter into exchange contracts in two combinations from the following types of flows:

- fixed rate
- variable rate (indexed on the Eonia, Euribor, or any other market benchmark)
- performance linked to one or more listed currencies, equities, stock market indices or securities, UCIs or investment funds
- dividends (net or gross)
- total return swap
- credit derivatives: credit default swaps
- other

Strategies for use of incorporated derivatives to achieve the management objective:

# UCITS AMUNDI ETF GOVT BOND EUROMTS BROAD INVESTMENT GRADE 5-7 UCITS ETF

- ☒ constructing synthetic exposure to a particular security, sector and/or to the FTSE MTS Eurozone Government Broad IG 5-7Y Index via the use of total return swaps.
- ☒ management of intermediate cash flows (dividends, subscriptions/redemptions, etc.) to reach the desired degree of exposure to a particular stock, business sector and/or to the FTSE MTS Eurozone Government Broad IG 5-7Y Index via the use of futures.
- ☒ management of intermediate cash flows (dividends, subscriptions/redemptions, etc.) to reach the desired degree of exposure to a particular stock, business sector and/or to the FTSE MTS Eurozone Government Broad IG 5-7Y Index via the use of options.

These instruments may be used to hedge up to 100% of the Fund's net assets.

For information purposes, when the Fund is being set up, total return swaps represent approximately 100% of net assets and they represent up to 110% during its life cycle.  
The assets held by the Fund and on the performance of which the total return swaps focus are retained by the depositary.

The forward total return swap is kept in position in the depositary's books.

#### **4. Securities incorporating derivatives ("embedded derivatives"):**

None.

#### **5. Deposits and liquid assets:**

The Fund may hold up to 20% of its net assets in deposits for a maximum term of twelve months. The deposits are used for cash management purposes and help the Fund achieve its management objectives.

#### **6. Borrowing:**

The Fund may temporarily, and in exceptional cases, borrow up to 10% of its net assets in order to optimise its cash flow management.

#### **7. Temporary acquisitions and sales of securities:**

None.

Over-exposure of the assets : None.

Total exposure to risks arising from these commitments and from open positions in real securities shall not exceed 110% of net assets.

#### **Information relating to financial guarantees (temporary purchases and sales of securities) and total return swaps (TRS):**

Type of collateral:

In the context of temporary purchases and sales of securities and OTC derivative transactions, the Fund may receive collateral of securities and cash.

The discounts that may be applied to the collateral received will take into account the nature, maturity, credit quality, currency and price volatility of the securities, as well as the results of the stress tests performed.

The securities received as collateral must adhere to the criteria defined by the Management Company. They must be:

- liquid
- transferable at any time
- diversified in compliance with the eligibility, exposure and diversification rules of the UCITS
- issued by an issuer that is not an entity of the counterparty or its group

For bonds, the securities will also be issued by high-quality issuers located in the OECD whose minimum rating may be AAA to BBB- on the scale of Standard & Poor's or with a rating deemed equivalent by the management company. Bonds must have a maximum maturity of 50 years.

# UCITS AMUNDI ETF GOVT BOND EUROMTS BROAD INVESTMENT GRADE 5-7 UCITS ETF

The criteria described above are detailed in a Risk Policy available on the Management Company's website at [www.amundi.com](http://www.amundi.com) and may be subject to changes, particularly in the event of exceptional market circumstances.

The discounts that may be applied to the collateral received will take into account the credit quality, the price volatility of the securities and the results of the stress tests performed.

Reuse of cash received as collateral: Cash received as collateral may be reinvested in deposits, government bonds, repurchase agreements or short-term money market UCITS in accordance with the Management Company's Risk Policy.

Reuse of securities received as collateral:

Not authorised: Securities received as collateral may not be sold, reinvested or provided as collateral.

## **Overview of the procedure for choosing intermediaries / counterparties and comments**

The Management Company generally issues a bid tender. In this case such a procedure has not been required. The Management Company will therefore not undertake a formal procedure that might be tracked and monitored, so as to ensure competition among potential counterparties of OTC swaps it enters into, or among the vendors it buys embedded derivatives from. The Fund may conduct these transactions with Société Générale Corporate and Investment Banking or any other company in the Société Générale group as counterparties or intermediaries.

## **Risk profile**

### Capital risk

Factors that may influence the ability of the Fund to track the performance of the FTSE MTS Eurozone Government Broad IG 5-7Y Index

### Interest rate risk

### Credit Risk

### Counterparty risk related to the tracking method selected

### Legal risk

### Liquidity risk

### Liquidity risk in a stock market

## e) Type and quality (collateral)

Amundi Asset Management undertakes to accept only securities of a high credit quality and to increase the value of its collateral by applying valuation discounts to securities loaned to it. This process is regularly reviewed and updated.

## i) Data on reuse of collateral

« The regulations governing UCIT forbid the reuse of collateral securities. Cash collateral received is:

- o reinvested in short-term money market funds (as defined by ESMA in its 'Guidelines on ETFs and other UCITS issues')
- o placed on deposit;
- o reinvested in high-quality long-term government bonds
- o reinvested in high-quality short-term government bonds
- o used for the purpose of reverse repurchase transactions.»

The maximum proportion of received collateral that may be reused is 0% in the case of securities and 100% in the case of cash.

The effective usage amounts to 0% for collateral securities and 100% for cash collateral.

## k) Data on safekeeping of collateral granted by the collective investment undertaking

Amundi Asset Management undertakes to do business with a limited number of depositaries, selected to ensure the adequate custody of securities received and cash.

## l) Data on return and cost broken down

For securities lending transactions and repurchase agreements, Amundi Asset Management has entrusted Amundi Intermédiation, acting on behalf of the UCITS, with the following responsibilities: selecting counterparties, ordering the implementation of market agreements, monitoring counterparty risk, performing qualitative and quantitative monitoring of collateralisation (dispersion checks, ratings, liquid assets), repurchase agreements and securities lending. Income generated from these transactions is paid into the UCITS. Costs generated by these transactions are incurred by the UCITS. Charges by Amundi Intermédiation must not exceed 50% of the income generated by these transactions.

## **Significant events during the financial period**

None.

# UCITS AMUNDI ETF GOVT BOND EUROMTS BROAD INVESTMENT GRADE 5-7 UCITS ETF

## Specific details

### Voting rights

In accordance with the Fund's Rules and the Fund Manager's stated policy, the Fund Manager exercises the voting rights attached to the securities held by the Fund and decides on contributions in the form of securities, except where the securities are those of the Fund Manager itself or of any associate company as defined in Art L. 444-3 of the French Labour Code (Code du Travail).

Two documents, "Voting Policy" and "Report on the Exercise of Voting Rights", prepared by the Fund Manager in compliance with the current regulations are available upon request.

This mutual fund (OPC) has not been selected as one of the funds which currently exercise voting rights.

### Soft commissions

The Fund Manager has received no "soft" commissions.

### Movement commission

The Fund Manager has received no commissions on trade.

### Use of credit derivatives

The Fund has not used credit derivatives during the period under consideration.

### Group funds

Details of the financial instruments held by the Fund which are issued by the Fund Manager or its associates will be found in the Auditor's Report for the latest financial period (enclosed herein) under the following headings of annuals accounts:

- Further details.
- Group financial instruments held by the Fund.

### Calculating overall risk

- Overall risk calculation method: the mutual fund uses the commitment calculation method to calculate the mutual fund's overall exposure to financial contracts.
